SUMMARY

IT / Cybersecurity Professional with a Security Clearance, CompTIA Security+, and Microsoft Azure certification. Experience in troubleshooting, building hands-on labs, including Active Directory, SOAR/EDR automation, networking and cloud deployment. Brings 4+ years of professional experience in compliance, data integrity, and process accuracy with proven ability to translate technical knowledge into business solutions.

EDUCATION

Alabama A&M University
B.S., Accounting

Normal, AL
December 2022

SECRET SECURITY CLEARANCE

CERTIFICATIONS

- CompTIA Security+
- Microsoft Azure AZ-900

PROJECTS

- Active Directory Deployment: Deployed Windows Server AD with DNS/DHCP; managed domain users, policies, and client authentication.
Source: [Active Directory Project](#)
- SOAR / EDR with Automation: Integrated LimaCharlie EDR with Tines to automate malware alerting and Slack notifications, reducing manual triage time.
Source: [SOAR Project](#)
- Network Packet Analysis: Network protocol analysis and troubleshooting in a Windows domain home lab using Wireshark. Focusing on Kerberos authentication, SMB file access, and ICMP connectivity testing.

EXPERIENCE

U.S. Army Space and Missile Defense Command

June 2021 – Sep 2025

Accountant

- Ensured compliance with Army financial systems and regulations, a process requiring strict data integrity and audit readiness.
- Served as a trusted cardholder responsible for secure procurement processes and vendor accountability.
- Developed attention to detail, risk awareness, and regulatory compliance that directly translates to IT security and governance.

ADDITIONAL SKILLS AND TECHNOLOGIES
